# Resident Webinar Series

Stryker brings you a comprehensive overview of its global orthopaedics portfolio in this unique webinar series which will span across the specialties of Joint Replacement, Sports Medicine and Trauma & Extremities.

## Participant criteria:

We are committed to the training of all surgeons, including fellows and early-career surgeons, ensuring they have the tools necessary for their future success. With this in mind, we have launched a webinar series dedicated to surgeons in their last year of training (fellows) and in their first year of practice.

## Webinar topics:
